A-LINE JERSEY

DOWNHILL APPAREL

SIZE: S - 2XL

The advanced design of the A-Line Jersey features a fitted, aerodynamic cut that allows integration with elbow and back protectors for the ultimate in performance and protection. The long-sleeved Lycra construction features mesh inserts on the sides for ventilation.

A-LINE JERSEY KEY FEATURES:

- Lycra construction with small vented panels on the sides for improved cooling performance.
- Sleek fitting profile offers superior aerodynamic performance.
- Ergonomic design allows easy integration with elbow and back protectors.
- Fabric stretches in one direction only for enhanced fit and to further improve aerodynamic efficiency.
- Long sleeved design.
- Silicone printing on lower back keeps jersey in the correct position when tucked inside pants.
