ALPS KEVLAR® KNEE GUARD

SIZE: S/M - L/XL

TECHNICAL PROTECTION

The flexible, Kevlar® reinforced construction of the Alps Kevlar® Knee Guard provides high levels of impact and abrasion protection and is engineered for a close, supportive fit, ensuring full freedom of movement while riding.

ALPS KEVLAR® KNEE GUARD KEY FEATURES:

- Highly flexible and lightweight knee guard constructed from breathable laminated impact foam and mesh.
- Integrated soft shell patella piece is covered with durable Kevlar fabric to provide both abrasion and impact protection to the knee.
- Liner offers progressive protection while providing a soft contact against the skin.
- Snug design offers a firm compression fit and soft tissue support for all styles of riding.
- Bottom elastic designed to stay just above the calf to help keep the protection in place, while silicone printing on the inner liner also prevents the guard being displaced while riding.
- Stretch mesh panel for better stability of the guard while riding.
